

SNAKE PROOF YOUR DOGS

HUNTERS, WORKING DOGS OR PETS

In the field or in the city, you can have your dog trained to shy away from snakes! A proven method for training dogs to avoid poisonous snakes. Eliminate painful suffering or even slow, agonizing death. The dogs' reactions will also tell you when there is a snake in the area.

No harm to dog, handler or snake.
Owner/Handler must be present

Texas has 113 species of snakes with 15 being poisonous, 10 are Rattlesnakes. The seminar will be conducted by professional snake and dog handlers with more than 40 years of experience. There are over 3000 dogs snake proofed by these professionals.
